

# 6 mm + 12A + 6 Toughened Glass Laminated Glass Insulation Glass

6 mm + 12A + 6 mm Toughened Glass Laminated Glass Insulation Glass

6 mm + 12A + 6 mm Toughened Glass Laminated Glass Insulation Glass is a high-performance glass unit. It features a 6 mm toughened glass outer pane, a 12A argon gas spacer, and another 6 mm toughened glass inner pane. The toughened glass provides superior strength and safety. The argon gas spacer provides excellent thermal insulation, reducing heat loss and energy consumption. This glass unit is ideal for use in high-rise buildings, commercial centers, and industrial facilities. It offers excellent acoustic insulation, reducing noise levels. The glass unit is also resistant to UV radiation, protecting interior spaces from fading and discoloration. It is a durable and long-lasting solution for your glass needs.
