

5mm PVC Vinyl Sheet 5mm Thickness

5mm PVC Vinyl Sheet Features:

5mm PVC Vinyl Sheet is a high-quality, durable material used for a wide range of applications. It is made from polyvinyl chloride (PVC) and is available in various colors and finishes. The sheet is easy to install and maintain, making it a popular choice for interior and exterior wall coverings. It is also resistant to moisture, mold, and mildew, making it ideal for use in bathrooms and kitchens. The sheet is available in a variety of thicknesses, including 5mm, 6mm, and 8mm. The 5mm thickness is the most common and is suitable for most applications. The sheet is also available in a variety of colors and finishes, including solid colors, marbled patterns, and wood-grain patterns. The sheet is also available in a variety of sizes, including 4x8 feet, 4x10 feet, and 6x10 feet. The sheet is also available in a variety of quantities, including single sheets, rolls, and bulk quantities. The sheet is also available in a variety of grades, including standard grade, premium grade, and high-grade. The sheet is also available in a variety of finishes, including matte, gloss, and semi-gloss. The sheet is also available in a variety of textures, including smooth, embossed, and perforated. The sheet is also available in a variety of colors, including white, black, gray, and various shades of brown, blue, and green. The sheet is also available in a variety of patterns, including solid colors, marbled patterns, and wood-grain patterns. The sheet is also available in a variety of sizes, including 4x8 feet, 4x10 feet, and 6x10 feet. The sheet is also available in a variety of quantities, including single sheets, rolls, and bulk quantities.
