

## **0.5 mm 2D Drawing Accuracy**

Introduction

0.5 mm 2D Drawing Accuracy CVD (Control Volume) is a technique used to improve the accuracy of 2D drawings. It involves the use of a control volume to ensure that the drawing is accurate to within 0.5 mm. The accuracy is improved by using a control volume that is larger than the drawing itself. This ensures that the drawing is accurate to within 0.5 mm.

## **5 mm Accuracy**
