

Buy 6mm Euro grey tinted float glass with best price from China

Brief introduction of 6mm smoked glass

6mm tinted grey glass is made by adding color pigments to the raw materials in the float process. We also called 6mm Euro gray glass, 6mm light grey float glass, 6mm European gray glass etc. It's known as heat absorbing glass. It reduces the amount of light transmitted and also absorbs some of the solar energy.

The advantage of 6mm light grey glass

1. With high transparency, can clearly observe the outdoor scene
2. Absorbing the sun's radiation, resulting in "cold room effect", and heat preservation.
3. Preventing sun's ultraviolet light and indoor items from fade and deterioration
4. Increasing the good appearance of the building.

The application of 6mm Euro grey glass

1. 6mm Euro grey glass can be cut and used for [windows glass](#) directly.
2. 6mm Euro grey glass can be mirrored to 6mm Euro grey [mirror glass](#) and used as the decorative mirror in the shopping mall etc.
3. 6mm Euro grey glass can be laminated to 12.38mm Euro grey laminated glass, using for the door, railings, cabinet etc.
4. 6mm Euro grey glass can be insulated to Euro grey insulated glass, using for the window, curtail wall etc.
5. 6mm Euro grey glass can be tempered as the 6mm Euro grey tempered glass, widely used as the [glass table top](#).

Except 6mm Euro grey glass, what kind of color is available from JIMY GLASS?

Except 6mm Euro grey glass, you also can get other color such as: dark grey, dark green, F-green, dark bronze, Euro bronze, dark blue, Euro blue etc.
