

China 8.38mm laminated glass with F-green pvb manufacturer

8.38mm F-green pvb laminated glass

8.38mm French Green PVB laminated glass is made of two pieces of [4mm clear float glass](#) sandwiching a layer of 0.38mm [F-green](#) PVB film, by highly pressurized and industrial heating process. The lamination process results in the glass panels holding together in the event of breakage, reducing the risk of harm, which is classified as Grade A Safety Glass.

8.38mm Laminated Glass With French Green PVB Film

***High Security

When laminated glass is attacked by outside force, it is hard to be penetrated because PVB film has strong tenacity. When the glass is broken, the splinters will stick on the PVB interlayer and not scatter off.

***Sound Insulation

PVB interlayer is an effective absorber of sound. Therefore, the laminated safety glass offers better sound insulation performance than the pure glass with the same thickness.

***Anti-UV

Laminated glass can effectively prevent UV.

***Create aesthetic sense to building:

8.38mm color laminated glass will beautify the buildings and harmonize their appearances with surrounding views which meet the demand of architects.

8.38mm F-green PVB Laminated Glass Available Standard Size:

1830x2440mm, 2140x3300mm, 2250x3300mm, 2140x3660mm, 2250x3660mm, 2440x3300mm, 2440x3660mm, any cut to size could be produced as customer's requirement.

Product name	8.38mm F-green PVB Laminated Glass
Single glass thickness	2mm 3mm 4mm 5mm 6mm 8mm 10mm 12mm 15mm 19mm
Glass color	Clear, ultra clear, grey, green, blue, bronze, etc
PVB color	red, white, yellow, F-green, any pantone color

Thickness of PVB	0.38mm and multiple of 0.38mm
Advantages	Safety glass,heatproof glass,Anti-UV,decorative glass,etc
Standard size	1830x2440mm,2134x3300mm,2250x3300mm,2440x3660mm,max size is 3000x8000mm,can be produced as your requested
Production time	Within 7-15 days after the order is confirmed
Packaging	Fresh new strong export plywood crates with paper
Other names	8.38mm color laminated glass,441 safety laminated glass with F-green pvb, F-green laminated glass 8.38mm

8.38mm Laminated Glass With F-green PVB Application:

- Safety Glazing Applications
- Interior Partitions,Office Building,flooring
- Balustrade,handrail,hotels,schools
- Many others

High Quality:

1. Meet with standard of ISO, CCC, CE, EN12543, and ANSI Z97
2. Select flash and flat clear float glass for lamination
3. Use the famous brand EVA and PVB interlayer.
4. Special service available that produce with glass or interlayer specified by clients

What kinds of color [laminated glass](#) you can get it from Shenzhen Jimmy Glass:

- 1.Clear Laminated Glass
- 2.Ultra clear laminated glass
- 3.Grey laminated glass
- 4.Bronze laminated glass
- 5.F-green laminated glass
- 6.Blue laminated glass

Any other pantone color PVB film for Laminated glass.
