

## 8mm safety tempered canopy glass China manufacturer

A canopy protects people entering the building, keeps the weather away from the doors, use [glass](#) to build the canopy, allows natural light go into the entrance, make the entrance more bright.

Jimy Glass produce very good quality [8mm tempered glass](#) for canopy, includes clear safety toughened glass, frost tempered glass, pattern [screen printing glass](#), heat control color tempered glass, energy saving reflective tempered glass, etc. **Why choose 8mm tempered glass to build the canopy?**

- **High strength:** the 8mm tempered glass is 3-5times stronger than [8mm normal float glass](#), not easy to broke , can withstand high weight
- **High safety:** when the 8mm tempered glass is broken, it becomes small particles, human harmless
- **Customized design:** any size - max 3000\*8000mm, any shape - flat, curve, square, rectangular, etc. any process – drill holes, cut notches, polished edges, etc.
- **Reasonable cost:** the 8mm tempered glass price is much lower than laminated glass and insulated glass

### Why buy canopy glass from Jimy Glass?
