

Hot sale decorative 5mm clear diamond patterned glass manufacturer

About 5mm clear diamond patterned glass

5mm clear diamond patterned glass also named 5mm clear diamond textured glass, 5mm clear diamond figured glass, 5mm clear diamond rolled glass, 5mm clear diamond embossed glass. It's a kind of decorative translucent glass with embossed patterns on one. It is generally used in which privacy is request but light transmission is still important. It allows the maximum light pass through while maintaining your privacy.

Specification of 5mm clear diamond patterned decorative glass

The standard size of 5mm diamond patterned glass is 1220*1830mm, 1500*2000mm, 1524*2134mm, 1830*2440mm, 2140*3300mm etc.

Except 5mm clear diamond textured glass, any other else thickness of diamond rolled glass you can get from JIMY GLASS, such as 3mm clear diamond patterned glass, 4mm clear diamond patterned glass.

Performance of 5mm clear diamond figured glass

The physical and chemical properties of embossed glass are basically the same as clear float glass, but the difference for light transmittance. Soften the light and keep privacy for decoration.

Application of 5mm clear diamond embossed glass sheets

5mm clear diamond patterned glass is applied to all kinds of public and private places, such as office, meeting room, hotel, hospital, bath room, washroom, etc. It's widely cut to size used directly as window glass, glass table top, glass partition wall, glass screen etc.

Except clear diamond patterned glass, JIMY GLASS also can produce such patterned glass as:

clear nashiji patterned glass, clear flora patterned glass, clear masterlite patterned glass, clear flame patterned glass, clear aqualite patterned glass, clear mistlite patterned glass etc.
