

China manufacturer online hard coating energy saving 5.5mm dark grey reflective glass

Reflective glass also known as coated glass,heat-reflective glass.[5.5mm dark grey reflective glass](#) is coated on the 5.5mm dark grey tinted glass surface of one or more layers of alloy or metal compound film to change the optical properties of glass to meet a particular requirement.For visible light,there is proper transmissivity. For infrared light, there is higher reflectivity. For ultraviolet light, there is higher absorptivity.

5.5mm dark grey reflective glass features:

- 1) High visible light transmitting rate, low reflecting rate, low radiating rate ($e < 0.1$).
- 2) Avoid the light pollution and build good ecological environment.
- 3) Control solar energy radiation effectively, block far infrared radiation, save expenses of air conditioners in summer, save heating expenses in winter, have good effect of heat preservation and energy saving.
- 4) The mirror effect of reflective merges well with the surroundings and provides variations in appearance at different time of the day.
- 5) It can be cut, bent, tempered, heat strengthened and laminated without affecting the coating.

JIMY glass company more specification for dark grey reflective glass:

Thickness: 4mm, 5mm, 5.5mm, 6mm, 8mm, etc.

Size: 2140x3300mm, 2250x3300mm, 2140x1650mm, 2440x1650mm, 2440x3300mm, etc.Custom size is accepted.

Color:Dark Grey and Euro Grey,

Dark grey reflective glass application:

Dark grey reflective glass can single layer use,cut into design request size,for window,interior decoration,etc.

Dark grey reflective glass can two layer as reflective laminated glass,use for doors, balcony,balustrades, etc.

Dark grey reflective glass can process into [tempered reflective glass](#),use for interior glass screens, partitions walls, .

Dark grey reflective glass can process with clear tempered [laminated glass](#) into insulated glass,use for curtain wall,skylight,roof,etc

Reflective Glass comes in many intriguing hues to complement the architect's designs. It is suitable for glass curtain wall and blends well with metal, concrete, tiles, granite and other building materials.
