The features of curved grey toughened glass

- 1- Glass thickness: popular thickness in 5mm 6mm 8mm 10mm ...
- 2- Glass size: max size in 2440x3660mm, any customized size available. If the clear or ultra clear tempered curved glass, the max size we can reach to 3300x13000mm.
- 3- Glass special processing: drill holes, cutout, polished edge, logo printing, etc. All need to be finished before tempering.
- 4- It perfect to make as curved grey toughened laminated glass, bent gray tempered insulated glass, etc.

The advantages of black bent tempered glass

- Safety glass,when it is broken, the small broken pieces have no big harmful for humans.
- Heat-absorbing: even the black color tinted glass processed as black tempered glass, but still keep the heat absorbing function, absorb 30-45% heat incident on their surface, allowing the interiors to remain cool, and helps in cutting down on electricity bills.
- Against glare and UV radiation, also protect privacy.
- Outstanding performance in resisting thermal stress and wind-load.
- Bent curved shape tempered glass, add great aesthetic value to the building.
