

China high quality 5mm Silk Screen Printed Glass for building wall

5mm Silk Screen Printing tempered glass, which made by Grade A high quality 5mm colorless float glass or [5mm low iron float glass](#), through depositing a highly durable and resistant lacquer onto the smooth surface of the glass, then by carefully baking into the furnace which is constant temperature, permanently bonding the lacquer onto the glass. Painted [declarative Glass](#) has the feature of the [tempered glass](#) and with wonderful opaque and colorful decorative application.

Silk-screen printed glass color features

1. Contemporary colors, if you can provide the Pantone color number.
2. Resistance-has a special resistance to humidity
3. Durability - As the paint is applied to the back of the glass, it is protected from damage, ensuring durability.
4. The brilliance of the colors within the range is far superior to gloss paints when trying to achieve a stunning affect.

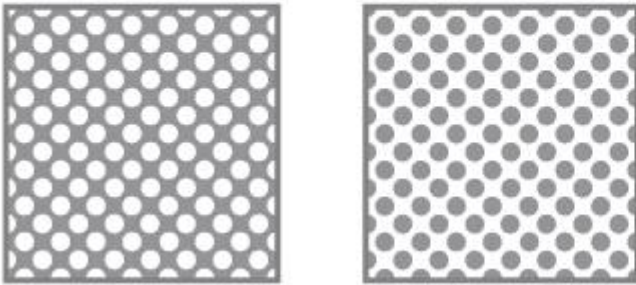

Processing Technology Before Tempering

1. Edge processing method: polished edges, chamfered edges or grinding edges
2. Edge Type
Round edge(C, or pencil), beveled edge, flat edge, OG edge(double, triple),
convex edge , customized edge(modelled)
3. Drilling holes
4. Cut out

Its very important to Pattern placement, Its when produce silk-screened glass, should be included in the drawings, especially if you are using a line pattern or for all other patterns if a specific orientation is required.

Dot Patterns

The dot pattern starts at the base dimension and runs off the edges of the glass. Partial dots/holes are acceptable with standard dot pattern orientation.

Line Patterns

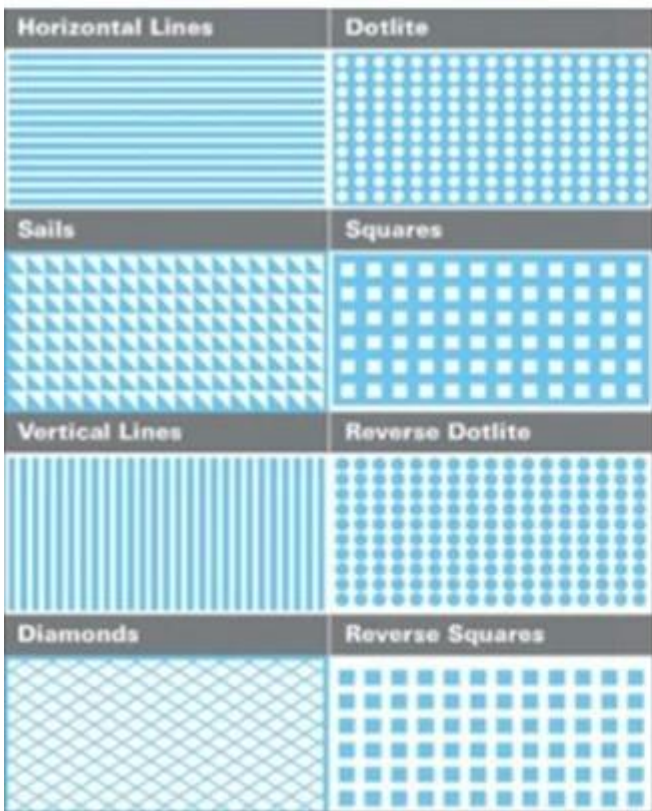

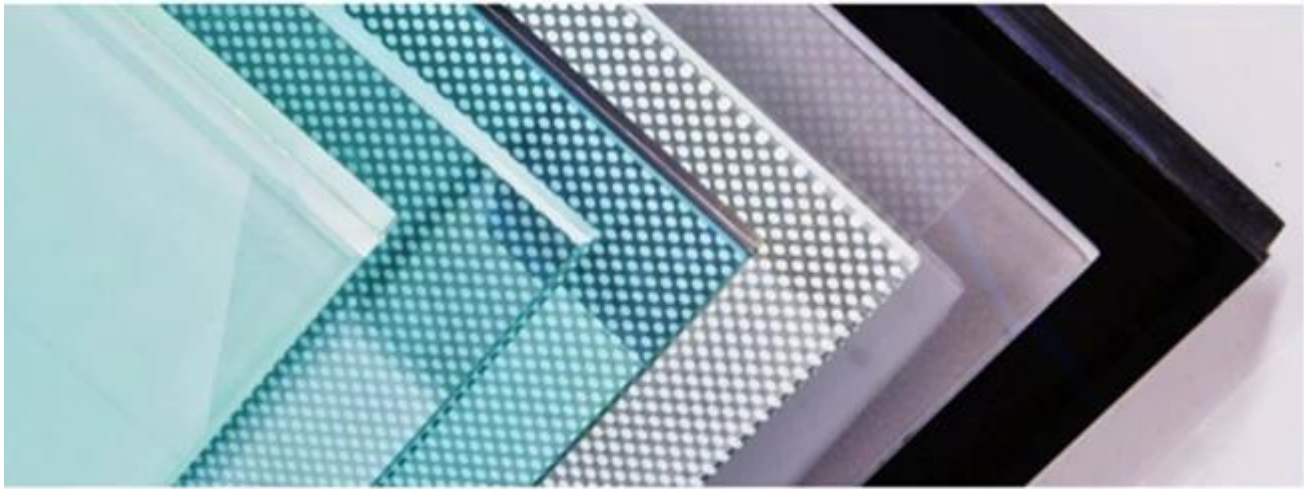

The dot pattern is vertical or horizontal and starts with either a line or space.

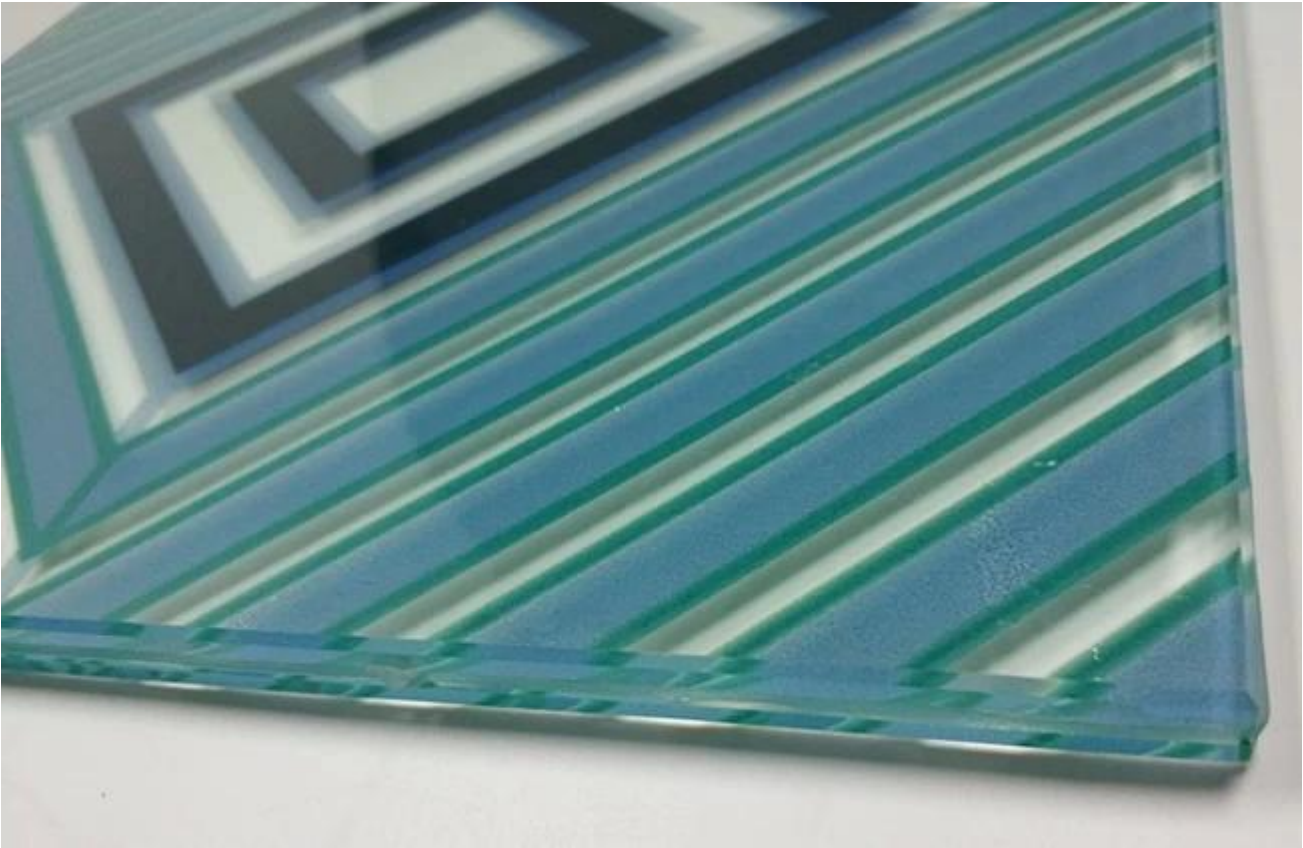

Note - When a line pattern is specified, answers to the following questions should be included in the specification:

- 1) Will the lines be vertical or horizontal?
- 2) Which edge will the pattern start on?
- 3) Will the pattern start with a line or space?

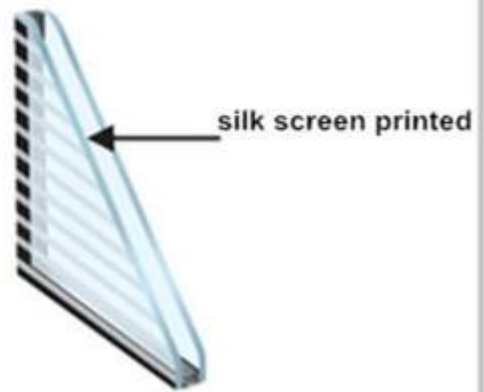

Silk Screen printed glass is available in Various Colors & Patterns design:

5+5mm Silk Screen printed [laminated glass](#) with colorful pattern

Insulated Glass units with Silk Screen Printed Color Pattern

Silk Scceen printed glass apply for building glass curtain wall
