

## **China safety 17.52mm 21.52mm 31.52mm non skid tempered laminated glass flooring manufacturer**

**Silk screen printed Non-Slip glass floor** also name ceramic frit screened Anti-Slip glass floor, is an innovative flooring materials, it with superior performance and safety. And produce by silk screen printed processing technology to printed different design pattern in the glass surface to get the anti-slip effect, which widely used by people cause of its easy to clean and beautiful outlook.

Except the silk screen printed anti-slip glass floor, there are also other types glass floor, such as the frosted anti-slip floor glass, special-processing anti-slip floor glass.

**The frosted anti-slip glass floor** which is made by the frosting on the glass surface, the glass surface is very rough to reach the anti-slip effect. This type floor glass, has good anti-slip effect but not easy to cleaning, so its less been choose by the market.

**Special-processing anti-slip glass floor**, our JIMYGLASS with many years research and development to produce by multi-processing technology, adopt the Grade A high quality glasses and make a special Non-Slip pattern in the surface. its the best anti-slip effect and very easy cleaning.

Glass thickness and makeup for flooring applications is dependent on application and engineering requirements. Common thicknesses include 17.52mm, 21.52mm & 31.52mm.

### **Characteristics:**

Colours: extraclear, clear, bronze, grey, green, blue, black and so on.

With mirror base: extra-clear, clear and coloured.

Thickness: 6, 8, 10, 12 and laminated

Weight: 2.5kg/m<sup>2</sup> per mm thickness.

### **FEATURES**

Highly slip resistant and easy to clean

Available in different color and patterns as per design

Specific designs for grip and drainage.

Use can also improve non-slip properties.

Interior, exterior, dry and wet use.

Even quality, without irregularities.

Highly scratch and stain resistant.

Large-scale production capacity.

Easy transformation: cutting, bevelling, curving, drilling, tempering and laminating.
