

China transparent tempered laminated skylight Glass Ceiling and roof

Clear tempered laminated Glass Ceiling can give more light transmitting and have a wide sphere of vision, to let the building looks more large and brightly. Its more and more popular by the designer and owner. Normally made by two or three layer [clear tempered glass](#) or [low iron tempered glass](#) bonding together with polyvinyl butyral (PVB) or SGP film.

Clear tempered laminated Glass Ceiling is a type of safety glass that holds together when shattered. Even breaking, the small particle still been hold by an interlayer PVB or SGP film, between its two or more layers of glass.

SPECIFICATION:

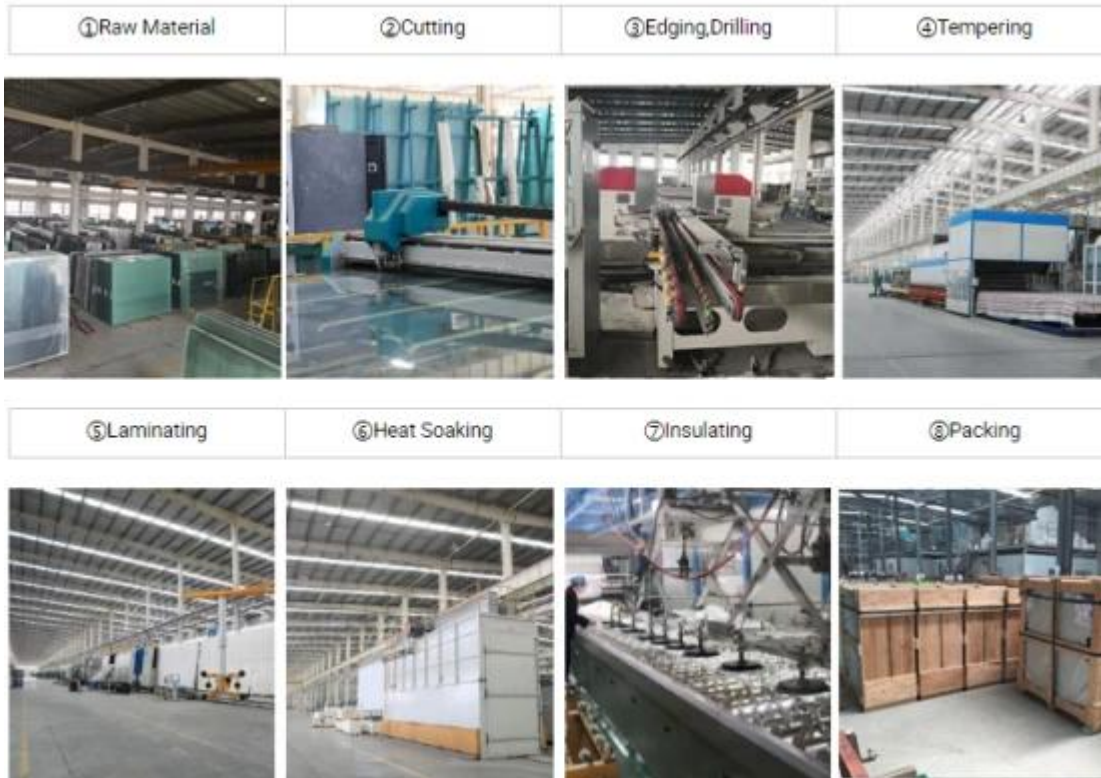

Shape	Flat or curved
Processing	Polished edge, Drill holes, Cut notches, Silkscreen, Painted, Frosted, Acid etched, etc.
Size	Max:3000*12000mm; Mini:300*300mm; Minimum radius:500mm Max length of arc 1350mm(R<1200, H<2370) 2400mm(R>1200) 3600mm(R>1200 H<2370)
PVB /SGP Color	Clear, Green, Blue, Bronze, Grey, Milky white ,pink, red, etc.
Glass Color	Clear, Extra Clear, French Green, Dark Green, Ford Blue, Dark Blue, Bronze, Euro Grey etc.
Glass Type	Common laminated glass, curved tempered laminated glass , Coated laminated glass, Low-E laminated glass, Ceramic Pattern Printed/Silkscreen laminated glass, Bulletproof laminated glass, Frosted laminated glass, etc.
Thickness	8+1.52+8mm, 10+1.52+10mm 8+8+8mm, 10+10+10mm, etc.
Quality	Meet a criterion of the National GB / 9962-1999 & CE

Features

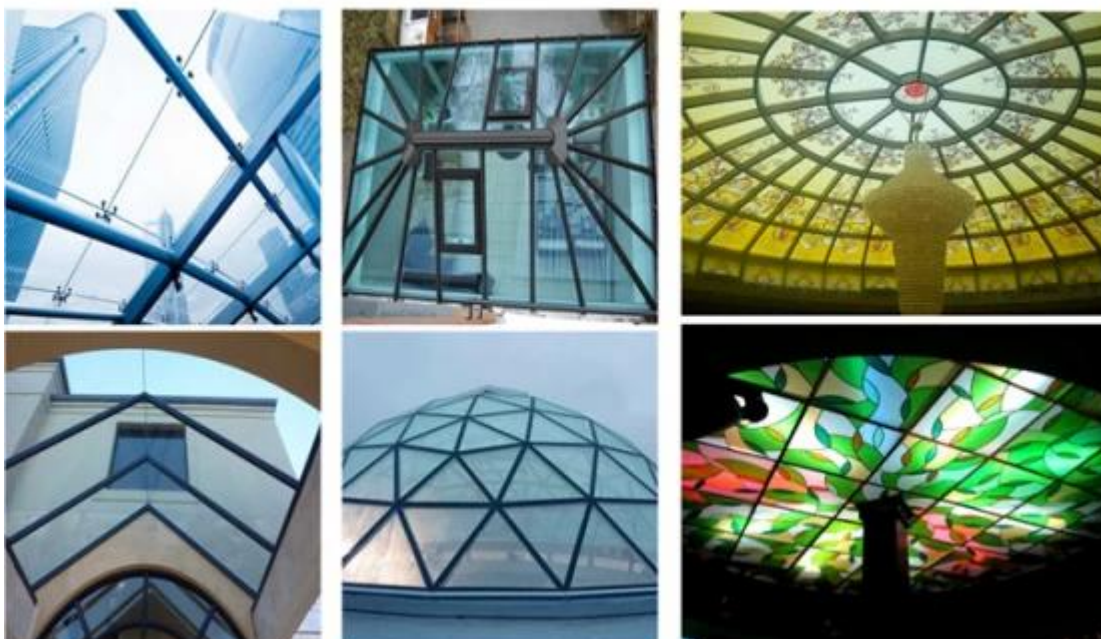

1. Extremely high safety and stronger
2. Energy-saving building materials
3. Create aesthetic sense to buildings
4. Sound control
5. UV protection
