Benefits of 5+5mm textile laminated glass

- 1.A wide range of fabrics, offering beauty and sophistication.
- 2.Different fabrics, when used in partition or screen applications, allow different levels of light transmission and vision control.
- 3.The fabrics are encapsulated between panes of glass, ensuring they are protected and allowing easy cleaning of the surfaces.
- 4.The encapsulated fabrics are protected from UV thanks to the interlayers used during lamination.
