

China architectural glass factory fast delivery 5.5mm euro grey tinted glass

About 5.5mm euro grey tinted glass:

Float glass is made by high-quality sand, natural ores and chemical materials by mixing them and melting them at high temperature; The molten glass flows into tin bath where the float glass is spread, polished and formed on the molten tin. The float glass has smooth surface, excellent optical performance, stable chemical capability, and high mechanical intensity. It is also resistant to acid, alkali and corrosion.

5.5mm euro grey tinted glass (light grey body tinted glass) is produced by the float glass process with the addition of small quantities of metal oxides to color the normal clear glass mix. This coloration is achieved through adding metal oxides at the smelting stage. Addition of color does not affect the basic properties of the glass, even though visible light reflectance will be slightly higher than clear glass.

5.5mm euro grey tinted glass advantages:

1. Smooth and flat surface, visible flaw is controlled strictly, improve utilization.
2. Higher solar heat radiation absorption: in summer, keep the indoor cooler than outdoors; when winter, keep warm indoors than outdoors, save air conditioning fees.
3. Reduced transmission of solar heat radiation: The body tinted float glass can reduce transmission of the sun's harmful rays by up to 80% thus minimizing fading to interior furnishings.
4. High creative value due to color variety: The comprehensive range of soft natural colors complements and harmonizes with modern building materials to provide an exciting and different look to new or existing buildings.
5. Post-production treatment possibilities: Tinted float glass can be processed into hot bending glass, tempered glass, laminated glass, insulated glass and in addition can be silk-screened or enameled.

5.5mm euro grey float glass available size:

2140x3300mm, 2250x3300mm, 2140x1650mm, 2440x1650mm, 2140x3660mm, 2440x3300mm, etc., any customized size could be produced as you requested.

China manufacturer euro grey float glass available thickness

Thickness available for 4mm, 5mm, 5.5mm, 6mm, 8mm, 10mm...etc. If your order is confirmed, don't hesitate to contact us to confirm if available in stock.
