Why choose 11.14 clear tempered laminated glass from Jimy Glass?

1. We use the best float glass in china, it's 100% super flat and without bubble, defect.
These perfect characteristics make sure it's with extremely stable construction after tempered.

2. We have the newest advanced tempered machine(world famous brand 3A advanced series)
One top advantage of this tempered machine is it can control tempered strength uniformity<6 Mpa. Whereas most of other temper machine is only between 15~20 Mpa. Which means, the surface of our tempered glass will be more flat and the self self-detonation rate is much lower.

3. We have the best laminated machine to bond the glass and PVB interlayer tightly and permanently.

4. All of our glass are produced under ISO 9001 certificate and passed CCC, BS6206, CE EN12150 EN12543, EN14449:2005, SGCC ANSI Z97, CCC certificates, meet European, USA market safety glass standards(highest construction glass standards in the world).

5. We've had long term business relationship with over 500 customers, and supply Ten years warranty: if any quality problem, we will refund back or replace the products in shortest time.
