- Acid etched or screen printing to cover the concrete
- Many others

High quality flat and curved transparent tempered laminated glass railing fence

17.52mm clear tempered laminated glass VS 17.52mm low iron tempered laminated glass for balustrade

1. the 17.52mm low iron tempered laminated glass looks more brightly and more high quality,
2. the 17.52mm clear tempered glass cost more cheaper than 17.52mm extra clear tempered laminated glass.
3. the super clear tempered glass no impurity, high purity, the self-explosion rate only 1/10000, the normal clear tempered glass the self- explosion rate of 3/1000, so the 17.52mm ultra clear tempered laminated glass is more safety and durable.

Why choose JIMY GLASS FACTORY?

About Quality

1. Strict on quality control: We will control the precision very strictly, the tolerance for thickness is $\pm 0.2\text{mm}$, for size is $\pm 1\text{mm}$;
2. Quality guarantee: All our glass is pass the certificate of ISO, CE, SGS, etc, and we offer at least 10 years warranty;
