

26.38mm double glazing insulated glass supplier, blue laminated insulated glass sheets, 6mm+12A+4mm +0.38PVB+4mm laminated insulated glass.

26.38mm double glazing insulated glass is also called energy-saving glass and good building glass material, It can create a more comfortable indoor environment avoiding extreme temperatures, and reduces heating and air conditioning costs significantly.

Characteristic of insulated glass

Energy saving: the insulating glass has a special metal coating film, which can achieve a shielding coefficient of 0.22-0.49. It can effectively reduce the load of the indoor air conditioner, and it can achieve good energy saving effect when using air conditioner for cooling or heating.

Temperature isolation: Since the hollow glass has a dry gas inside, it can have a relatively good temperature insulation function and also has a high sound insulation function.

Appearance: Insulating glass has good decorative properties, and consumers can choose the style to decorate according to their needs, so that the building or interior can achieve the desired decorative effect.

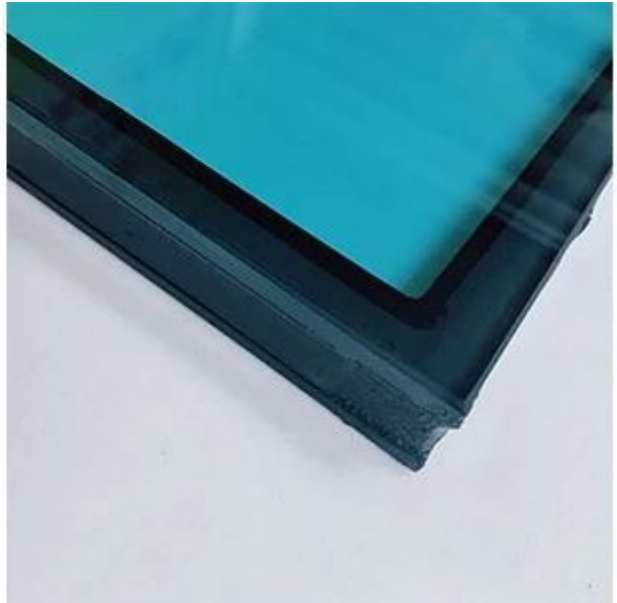

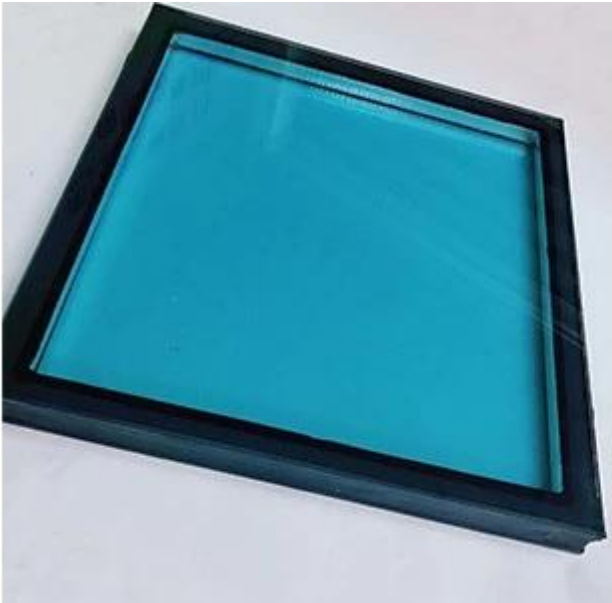

Tempered glass

Tempered glass is a kind of prestressed glass. It is a high safety glass which is used when strength, thermal resistance and safety are important considerations. If it is broken become some litter granulate and not hurt person.

Laminated glass

Laminated glass is made of two or three pieces of glass, which is bonded with an pvb/ sgp/ eva interlayer through highly heating pressurized process. laminated glass is safety if attacked by outside force, it hard to be penetrated because PVB film has strong tenacity and can absorb and weaken a mass of striking energy.

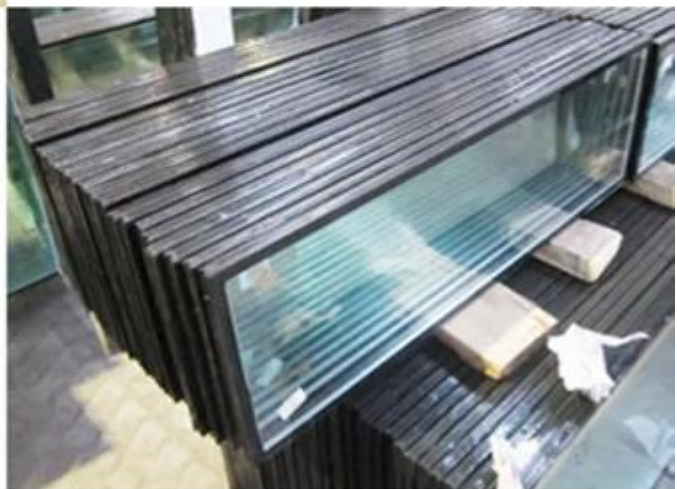

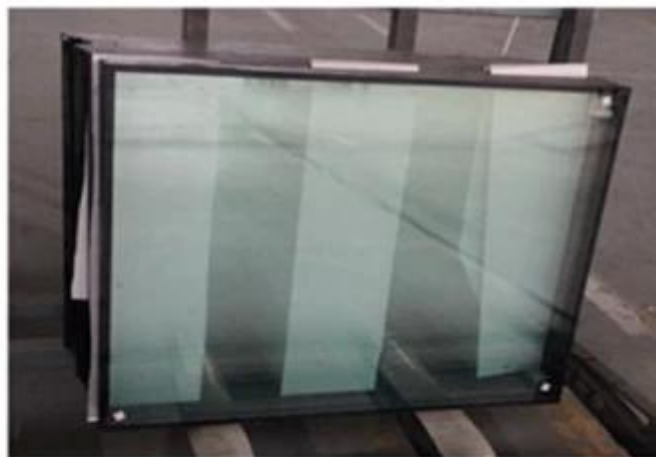

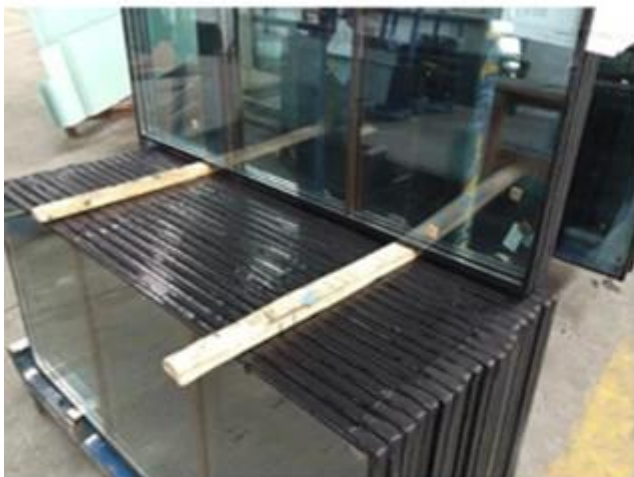

Glass name[]	26.38mm laminated insulated glass
Color[]	Blue
Size[]	Customized size max[]3300*13000mm
Laminated thickness :	4+4mm,5+5mm,6+6mm,8+8mm,10+10mm 12+12mm etc
Application:	Can be used for glass windows and door, glass curtain walls etc
Insulated compositon:	4+6a+4,6+12a+6,8+9a+8,10+12a+10,12+16a+12,etc
Glass type:	Tempered insulated glass,low e insulated glass, laminated insulated glass, double glazing glass, reflective insulated glass,low iron insulated glass>window insulated glass etc.
