

8mm, 10mm, 12mm frosted sliding glass door, interior tempered glass door, shower glass door price.

Why frosted tempered glass become more and more popular for interior sliding doors?

One strong selling point is: it can meet both the privacy and light transmit requirements at the same time.

Frosted tempered glass door advantages:

1. Safety: Tempered glass is 3-5 times tougher than annealed glass. Even when broken, tempered glass become cubical fragments will not hurt people.
2. Privacy and transmission of light : Frosted glass can keep privacy while allow 30% to 70% light transmit.
3. Decoration: The frosted part can be half part, lines, dot, pattern, etc, for decoration; For more decoration designs, you can also have [silk print glass](#) or [digital print glass](#).
4. Surface: Frosted glass appearance looks more high-end than clear glass; Smooth surface and easy to be clean.
