

China 8mm Safety Curved Tempered Glass Manufacturer Price

China factory 8mm curved ESG glass, 8mm curved tempered glass is produced by heating [annealed glass](#) to over 600 degrees and quickly cooling, through the computer control to realize automatic radian and mold shaping.

The characteristic of the China 8mm clear [curved toughened glass](#):

1. Harmless for human being: when it broken, the particles are small and no harms for people.
2. More stronger: up to five times stronger than annealed glass of the same thickness, making it an ideal safety or security glass.
3. Available in glass types: Clear, Tinted, Reflective, Low Iron, Etched, Textured, Colorsmart, Thermocolour and [Low E glass](#) types.
4. Special processing in advance: all work finished on tempered glass need to be done before tempering, such as beveling, cutting, drilling, etc.
5. One radius curved glass.
6. Quality: conforms to the requirements of BS6206:1981 Class A, European Standard BS EN 12150.

The Specification of the Shenzhen Factory Curved [Toughened Glass](#)

1. Thickness: 5mm, 6mm, 8mm, 10mm, 12mm, 15mm, 19mm
2. Size: Max is 5600mm*2400mm, Mini is 400mm*600mm
3. 5-6mm mini radius: 1000mm
4. 8-12mm mini radius: 1500mm
5. 15-19mm mini radius: 2000mm
6. Color: clear, ultra clear, grey, green, blue, bronze
