

441 green color PVB laminated glass 8.38mm

Introduction of 8.38mm green laminated glass

8.38mm green laminated glass can be one piece [4mm green float glass](#) and one piece 4mm clear float glass bonded together with 0.38mm clear PVB, also can be two pieces [4mm clear float glass](#) bonded together with 0.38mm green PVB, via a controlled, highly pressurized and industrial heating process, which make the laminated glass to be high safety glass.

Characteristic of 8.38mm green laminated glass

High Security

Because the PVB film has strong tenacity and can absorb and weaken a mass of striking energy, the laminated glass is hard to be penetrated when it is attacked by outside force. Even if it's broken, the splinters will stick on the PVB interlayer and not scatter, to make sure the human safety.

Anti-Ultraviolet

The green glass and green PVB film can absorb the incoming ultraviolet radiation, so it can protect the furniture from discoloring and damage.

Energy-saving

The green glass and green PVB interlayer could impede the solar heat transmission, so can reduce the cooling cost.

Specification of 8.38mm green laminated glass

Available size: 2140x3300mm, 2140x3660mm, 2250x3300mm, 2250x3660mm, 2440x3660mm, any customized size could be produce.

Glass composition: 4mm green float glass + 0.38mm clear PVB + 4mm clear float glass, 4mm clear float glass + 0.38mm green PVB + 4mm clear float glass, not much difference between their features, but the green PVB laminated glass is cheaper than green float glass laminated glass

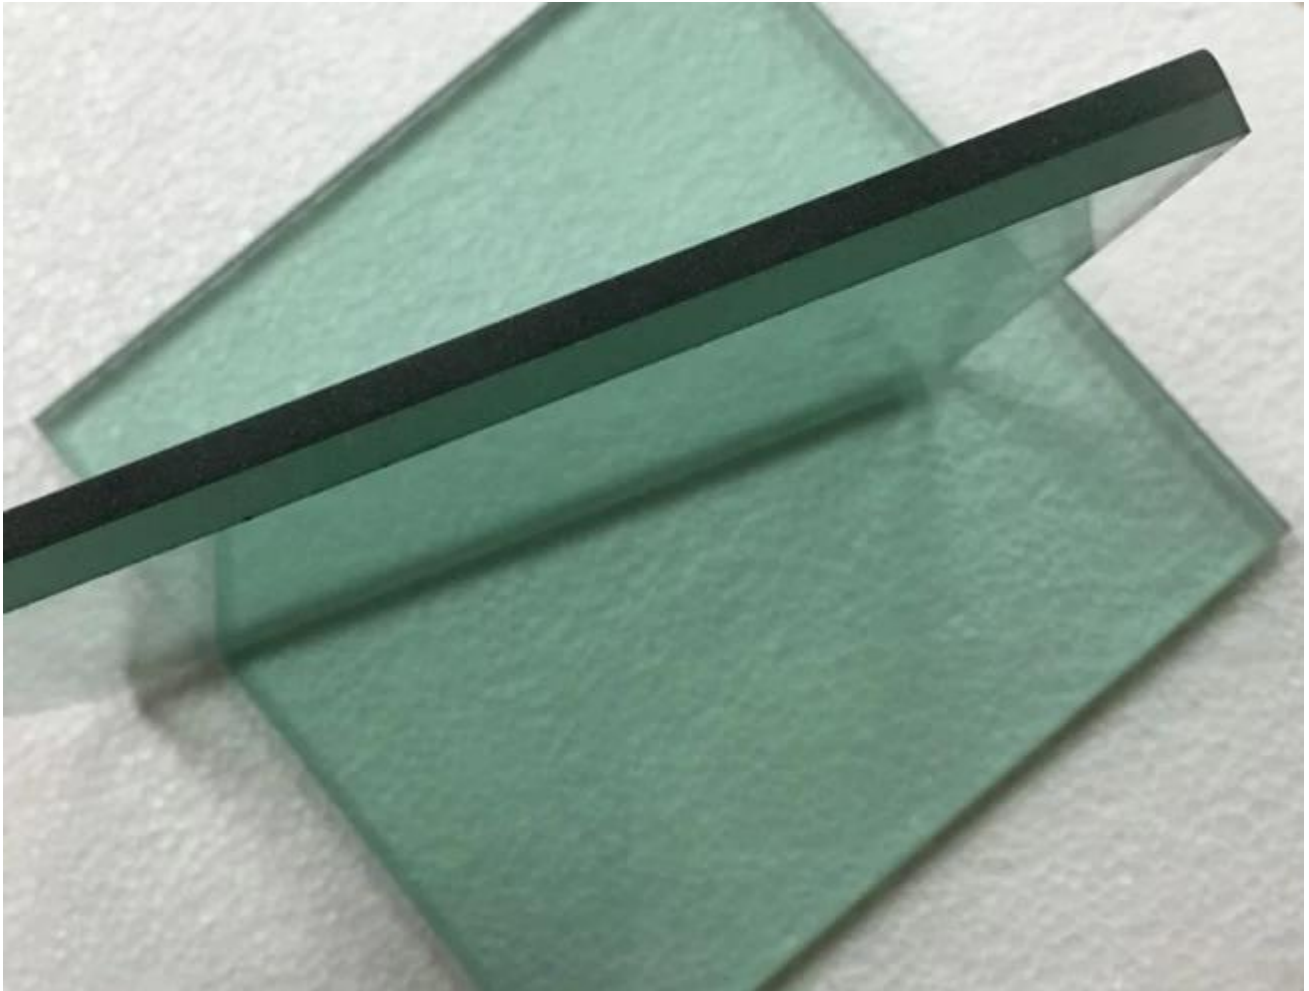

Color: light green glass (F-green glass), dark green glass, light green PVB (F-green PVB), dark green PVB

Application of 8.38mm green laminated glass

Because the green laminated glass is very safety, and have good sunshade efficiency, it is widely used as shop front glass, window glass, [balustrade glass](#), skylight glass, balcony railing glass, etc.

More about Jimmy Glass laminated glass

Except 8.38mm green laminated glass, we also produce all other thickness laminated glass, such as 6.38mm, 10.38mm, 8.76mm, 13.52mm, 17.14mm, 17.52mm, 21.52mm, etc., and also other color laminated glass, such as blue laminated glass, bronze laminated glass, clear laminated glass, grey laminated glass, [white PVB laminated glass](#), acid etched laminated glass, screen printing laminated glass, etc.
