

China curved reflective laminated glass suppliers

High quality curved reflective tempered laminated glass, curve coated toughened laminated glass, which is processed by two sheets of curved [reflective tempered glass](#) bonded together with PVB interlayer. It with the advantages of reflective glass and laminated glass, soundproof, heatproof, anti-UV, heat reflection, etc. Widely used for window, door, balustrade, wall, etc.

The specifications of colored reflective laminated curved glass:

- Glass thickness available in: 4+4mm 5+5mm 6+6mm 8+8mm ...
- Glass radius: min radius around 680mm, the max ARC length 1650mm, the max height 2440mm.
- Glass color: ford blue reflective laminated curved glass, dark blue coated laminated bent glass, bronze coated safety laminated glass, curved black reflective laminated glass, F green laminated curved glass, dark green laminated curved glass, etc.

About curved glass, as per to different customer's requirement, our factory have several production lines to meet it.

1. Mini radius around 680mm, the max ARC length 1650mm, max height 2440mm, perfect for making 5+5mm [6+6mm curved laminated glass](#); Radius around 800mm, perfect for 8+8mm laminated bent glass. etc.
2. Radius around 900mm for 10mm, the max ARC length 2200mm, max height 3300mm.
3. Radius around 6000mm or above, the max ARC length 3300mm, max height 13000mm.
4. Radius around 485mm, the max ARC length 1500mm, max height 2400mm. etc.

The advantages of curve coated laminated glass:

- It is the solar control glass, can be used to min solar heat gain and help control glare in hot climates. In temperate regions, it can be used to balance solar control with high levels of natural light.
- One of the most safety glass, if it is broken by outside, the glass sticks to the PVB interlayer, will not fall down, have no harm for humans. And with advantages of soundproof, heatproof, anti-UV, widely used for window, door, walkway and conservations.
- Can be an attractive feature of a building whilst at the same time minimal, or even eliminating the need for an air conditioning system, reducing costs of the building and saving energy.

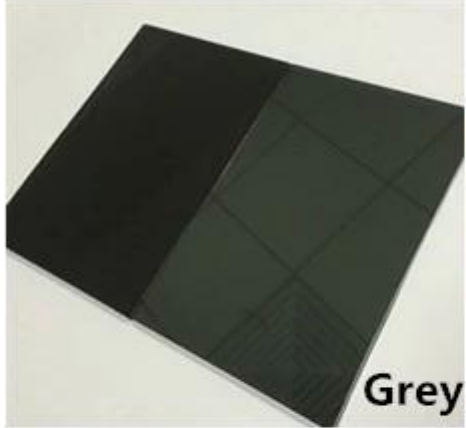

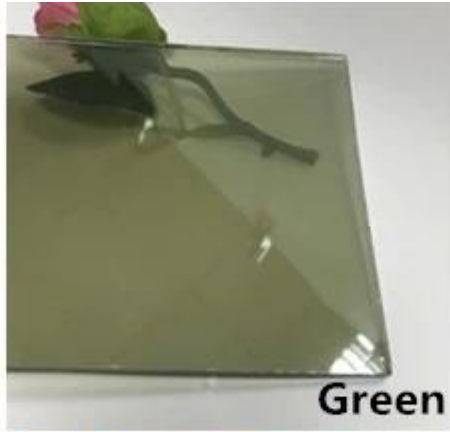

The applications of reflective tempered laminated curved glass:

According to the advantages of [color reflective laminated glass](#), widely used for window, door, balustrade, walkways, storefront, skylight, etc.

The most popular colored reflective laminated glass we do as below:

- Ford blue reflective laminated glass in flat or curved shape 4+4mm 5+5mm 6+6mm
 - Black reflective laminated glass in flat or curved shape 4+4mm 5+5mm 6+6mm 8+8mm...
 - Flat curved bronze coated safety laminated glass 4+4mm 5+5mm 6+6mm
 - Green reflective safety laminated glass 4+4mm 5+5mm 6+6mm
- Etc.
