

Hot sale safety 552 ultra clear laminated glass supplier China

What's 552 ultra clear laminated glass?

552 [ultra clear laminated glass](#) also called 552 low iron laminated glass, 552 super clear laminated glass. It's consisted of 2 pieces of 5mm ultra clear float glass with 0.76mm clear PVB interlayer.

[Ultra clear float glass](#) is manufactured in the same manner as ordinary float glass with a large percentage (approximately 90%) of the iron content removed. It is a high-quality, multi-functional new high-grade glass. The rate of light transmission can be up to 91.5% or more. So it was famous for features of crystal clear, high-grade elegant. Thanks to its high transparency, it's widely made for ultra clear laminated glass and used for high-end shopping mall.

How does 552 ultra clear laminated glass work?

1. Shock resistant: If the glass cracks, splinters will adhere to the interlayer and not scatter. It's much higher strength to resist shock, burglary, burst and violent force.
2. Sound proof: The ultra clear laminated glass can weaken the transmission of noise and sunshine which result in a lower air condition expense.
3. Anti-UV: laminated glass can effectively prevent UV.
4. Create aesthetic sense to buildings: Ultra clear laminated glass will beautify the buildings and harmonize their appearances with surrounding views which meet the demand of architects.
