

Wholesale price ice cracked laminated glass supplier China

What is ice crack laminated glass?

Cracked ice is a laminated specification consisting of 3 layers of glass sheets. The cracked glass itself is a layer of [toughened glass](#). This toughened glass is shattered by a process which sits in the middle of the three glass sheets, sandwiched by two sheets glass either side of shattered piece. Ice crack glass is not only great art of building materials, while both UV, heat insulation, sound insulation, bulletproof and other features, the performance of the building was safe and generous, noble and extraordinary.

Specification:

Combination: Ordinary glass + tempered glass(shattered by a process) + ordinary glass

Available thickness: 4+4+4mm, 5+5+5mm, 6+6+6mm, 8+8+8mm etc.

Available PVB size: multiply of 0.38mm

Interlayer type: PVB or SGP etc.

Single glass sheet: 4mm 5mm 6mm 8mm 10mm 12mm 15mm 19mm etc.

Edge work: flat edge(used mostly)

Color: clear, ultra clear, blue, grey, bronze, green etc.

Size: Mini size 150*300mm, Max size: 3000*8000mm

Advantage of broken laminated glass

1. High safety: The PVB interlayer withstands penetration from impact. When the glass is broken, the particles will be stick on the PVB and will not do harm for people.
2. Energy-saving building materials: PVB interlayer can control the transmission of solar heat and cooling.
3. Decorative the building: With a tinted interlayer can beauty the buildings and meet the demand of architects.
4. Sound control: PVB interlayer is an effective absorber of sound.
5. Anti-UV : The interlayer filters out ultraviolet rays.

Application of ice crack laminated glass

Laminated ice cracked glass as a kind of safety decorative [laminated glass](#), widely used for glass worktops, glass splashback, [glass table top](#), glass partition wall etc.
