

China good quality tempered table top glass manufacturer

What is kind of tempered glass for table top:

Tempered glass is a type of safety glass regularly used in applications in which standard glass could pose a potential danger. Tempered glass is four to five times stronger than float glass and does not break into sharp large pieces when it breaks. Tempered glass is manufactured through a process of extreme heating and rapid cooling, making it harder than normal glass.

Jimmy Glass Company offer a wide selection of glass tops in various shapes, thicknesses, edge work and sizes, includes an extensive array of many other shapes for glass tops including rectangle, round, square, and even boat shaped.
