

Import solar control 4mm light blue reflective glass from China

Introduce about 4mm Ford blue reflective float glass

4mm light blue reflective float glass also named 4mm Ford blue reflective glass, 4mm Ford blue hard coating glass, 4mm one way reflective blue glass etc. Reflective glass is also called reflected glass or reflection glass. The coated glass is coated with one or more layers of metal, alloy or metal compound film on the glass surface to change the optical properties of the glass to meet certain requirements.

Specification of 4mm Ford blue hard coating glass

Thickness: 4mm. Other available thickness is 5mm 5.5mm 6mm 8mm 10mm

Color: Ford blue. Other available color such as Euro bronze, dark bronze, Euro grey, dark grey, F green, dark green, dark blue.

Available size: 2140*3300mm, 2140*1650mm, 2250*1650mm, 2440*1650mm, 2250*3300mm, etc., any customized size could be cut.

Deep processing: Easy to be cut, tempered, laminated, insulated, etc.

Advantage of 4mm light blue online coated glass

Color: 4mm light blue reflective glass can enrich glass transmits generous levels of visible light and offers color neutrality, which also enhances the tint of the glass under the reflective coating.

Visibility: 4mm light blue online coated glass also has a special metallic coating that makes it possible to see out, preventing people from seeing in, to keep the privacy during the day.

Glare Control: 4mm light blue reflective glass impacts visible light transmittance. Reflective glass allows natural light into a building, while at the same time reduces glare. What's more, solar control reflective glass reflects a portion of incoming solar radiation, which limits heat penetration into the building.

Exterior Appearance: Reflective glass provides a bold, crisp exterior appearance, along with a dynamic building surface.

Application of 4mm Ford blue float reflective glass

1. 4mm Ford blue reflective glass can be cut directly to 4mm decorative window glass.
2. It can be tempered as 4mm Ford blue tempered reflective glass and apply as decorative furniture glass like cabinet glass.
3. When laminated as 4+4mm Ford blue reflective laminated glass, it widely used for railing glass or partition wall glass etc.
4. When deep processed into 4+4mm color reflective insulated glass, it can be used as solar control curtain wall glass etc.

Other products

Except 4mm Ford blue reflective glass, other product you can get from JIMY GLASS such as [4mm clear reflective glass](#), [4mm dark blue reflective glass](#), [4mm dark green reflective glass](#), [4mm F green reflective glass](#), 4mm Euro grey reflective glass, [4mm dark grey reflective glass](#), 4mm Euro bronze reflective glass, 4mm dark bronze reflective glass etc.
