

China manufacturers supply hot sell CE standard indoor and outdoor padel tennis court prices

What we are?

We are the top **5** glass factory suppliers in China since **1993** years produce high quality tempered glass and laminated glass, with over **10** years focus on producing glass for Padel Court.

- 1-Every week export **900**pcs glass to build **50** padel courts to Italy, Spain, Argentina, etc.;
- 2-Glass type is **12mm** clear tempered glass, and **13.52mm** clear tempered laminated glass, with **6/8/10** countersink holes, in size **1995x2995mm** ;
- 3-Have **CE** certificate, meet standard **EN12150** and EN14449;

Why choose 12mm clear tempered glass for padel tennis court not 10mm clear tempered glass?

When buying **10mm** clear tempered glass, for the customer only attention on the lower cost.

- 1)For 12mm clear tempered glass with more highly hardness and good strength than 10mm clear tempered glass, so that when 10mm tempered glass compare to 12mm tempered glass when Padel ball of

bounce are considerably poorer;

2)As 12mm tempered glass with more good ability to impacting which more safety and stronger, more durable, obviously the 10 mm toughened glass is less resistant as compared to the 12 mm tempered glass and thus subject to risks and more frequent damage.

The 13.52mm tempered laminated glass which one is the better choice for padel court?

Hardness and strength:	12mm clear tempered glass □ 13.52mm tempered laminated glass
Security capability :	12mm clear tempered glass □ 13.52mm tempered laminated glass
Cost accounting :	12mm clear tempered glass □ 13.52mm tempered laminated glass

Our high quality 6+6mm clear tempered laminated glass used for the Padel court fence to make sure whole structure in a very high safety condition, bearing will at 50 kg shots impact. So that if your location environment, wind load rate, if not good, the better to chose 13.52mm tempered laminated safety glass. As the 13.52mm laminate glass is high cost, if consider the budget, 12mm clear tempered glass will be more better.

How we control the high quality glass for padel courts?

Firstly, used the Chinese high quality float glass to make, which is no bubbles, no spots. No defect, highly flatness, etc.

Secondly, we have very professional Quality control department strict on every processed step, to ensure that production the high quality glass for every customer, surely every pieces glass been 100% full inspection before shipment to ensure all the glass customer received are high quality.

Third, we have own package department base on per customer glass order to design the package and confirm the loading container type to ensure the safety package for every customer.

Fourth, with professional technical team which can provide professional suggestion and technical supporting to supporting your projects.

Professional glass manufacturer

Professional glass manufacturer
