

Unbreakable 8+15+8mm laminated glass with anti slip pattern for floors

Nowadays, anti-skid glass is more and more popular to be used for glass flooring, it will become an invaluable alternative for traditional solid floors and staircases. Aside from allowing light to permeate into indoor residential spaces, glass flooring is commonly used in tourist attractions and observatories. The anti-slip glass flooring should look great and must provide a safe walkable surface. Anti-skid acid etched glass and anti-skid sandblasting glass are the best popular used as glass floor.
