

Residential round elevator glass, custom home elevator glass, circular Glass Lifts, curved lift glass manufacturer

Why the usage of [round glass elevators](#) in the home is increasing day by day?

1. The elevators provide a very safe way for people with limited mobility to move from one floor to another so that they can go around all of their houses.
2. Round glass elevators take up much less space than other types of elevators and offer wonderful panoramic views for passengers.

So residential round glass elevators are more and more hot sale for home use. The round elevator glass require very small radius curved shape, many of them require radius around 500mm, and very high safety.

It's with very high difficulty to produce it, but it's the very item our factory is especially expert on, as we can produce very high safety [5+5 curved tempered laminated glass](#) with small radius $R \geq 450\text{mm}$.
